Here are technical instructions for the printed poster and speed poster presentation.

1. The posters should be printed in a “portrait” format, Paper A0: height 1189 mm x width 841 mm (or 46.8 x 33.1 in), and in any case no larger than H120 x W90 cm.
2. Prepare your speed poster presentation on one slide in PowerPoint.
3. The speed poster presentation should last 1 minute only.
4. Bring the speed poster presentation on a USB key to the conference.
5. Contact the Moderator in the room for your presentation 15-20 minutes before the session starts.

Make sure your poster is interesting and visually compelling to attract viewers. You are welcome to add images, tables, and detailed data to better document your work.

The abstract content must be presented, including all authors, and contact information (e.g., email address, WhatsApp user, telephone number) for at least one author.

Posters should be posted at the latest during the coffee break Thursday morning and taken down after noon Friday.

Remember that you must be registered at the conference to be able to present your work. Consider inviting your colleagues to the NSQH 2024 conference too!
